SERVICES OFFERED

The Trusted Name in Precision Machining for the Medical Device Industry

A Partner in Innovation

Advances in medical device technology are multi-disciplinary achievements. Transforming an ingenious idea into a practical, life-enhancing product depends on a committed collaboration among medical scientists, innovative engineers and expert production professionals. At Astro Medical Devices, we have been an integral partner in lasting relationships with medical device OEMs by providing exceptional machining capabilities and expertise.

Serving the Medical Device Industry

Astro Medical Devices specializes in precision medical implants and instrumentation. Our services and experience are essential to the medical markets that we serve. Our capabilities are critical to product launches for medical device OEM's on the cutting edge. As specialists, we can make what others can imagine.

Our micromachining capabilities and process knowledge are focused on the exceptional requirements of the industry we serve. With state-of-the-art machining processes, including multi-axis Swiss turning, EDM and CNC high-speed milling, our versatility allows innumerable options for machining complex, ultra-precision parts. Astro engineers and technicians offer the most professional, knowledgeable and dedicated service in the industry.

As machining technology advances and medical science develops new ideas, Astro will continue to offer the capabilities and service that have made us the name to trust in medical device manufacturing.

The Astro/Cleveland Clinic Relationship

Trusted expertise, commitment to quality and a collaborative, strong work ethic are the signature of Astro Medical Devices. Long-term relationships with customers like the Cleveland Clinic highlight our dedication to solving the challenges of manufacturing new, complex devices. The world's leading cardiac care provider relies on Astro Medical Devices to turn innovative ideas into practical products that advance the quality of life.

Welcome to Astro Medical

A Trusted Partner for Medical Device OEMs

Contract Manufacturing of Precision Products for the Medical Device Industry

Since 1998, Astro Medical Devices has provided precision machining of products to customers who value quality. Our exceptional micro machining capabilities, combined with outstanding customer service, make us a trusted name in contract manufacturing. Our micro precision machining capabilities also meet the requirements for aerospace manufacturing, military contract manufacturing, government contract manufacturing and other industries that rely on ultra-precision products.

Astro Medical Devices' facilities in Northeast Ohio include ultra-precision Swiss turning, EDM and CNC milling machines. Our equipment allows tooling versatility for micromachining the most complex products. Repeatable precision is assured and reliable customer service is guaranteed.

Trust, Confidence, Precision

At Astro Medical Devices, our customers rely on us to provide the finest medical device machining. We are known for trusted service, quality and pricing on every contract manufacturing project.

- Assured delivery of your precision machining product
- Required documentation and traceability every time
- On-time delivery, so your product is always available

ASTRO Medical Devices thanks our customers for their business and our employees for their loyalty over the past 10 years.
