## VITAL STATISTICS

Year Founded: 1979  
 Number of Employees: 70  
 Number of Facilities: 1  
 Annual Sales: > \$10 Million

## WHO WE ARE

Founded in 1979, Centex has evolved with the medical-device industry, serving customers in the early years of double-digit growth and expansion, as well as the dynamic periods of corporate mergers and acquisitions. As the healthcare industry advanced, we proved our ability to work proactively with customers to address the ongoing pressures of reduced costs and new standards.

## MAJOR MARKETS

Large joint, extremities, and spinal implants and instrumentation

## SERVICES OFFERED

Centex offers a complete integrated manufacturing facility for your fabrication project. Just as the medical industry has always been an innovator in product design, Centex Machining's dedication to staying on the cutting edge of manufacturing technology and supplier controls reinforces our reputation as an innovator in product fabrication.

Our expertise includes:

- Multi-axis CNC Milling
- CNC Turning — Bar feed capacity from .030 to 3.000" diameter
- EDM Wire — Both CNC Wire EDM with 4-and 5-axis capability and Sinker type EDM.
- Heat Treating — In-house heat treating capability up to 1100 deg. for most precipitate hardening materials. Chart recordings and hardness testing are archived as required by our customers.
- Laser Etching
- Precision Welding — TIG welding processes complying with AWS standards free of all surface and subsurface defects. Weld processes inspected by dye penetrate and magnified visual inspection.
- Metal Finishing — Automated, multi-media vibratory finishing processing. Proven to be an extremely economic process for fulfilling many surface finish and cosmetic requirements.
- CMM Inspection
- Passivation — Nitric and citric passivation
- Belting, Polishing, and Cosmetic Finishes — A full range of belting and polishing equipment with grit and shot peening capability. Cosmetic anodize, hard chrome, electro-polishing, and other chemical or electrical finishes are well understood at Centex. Centex can easily comply with all surface texturing and finish call outs.
- Simple to Complex Assemblies — Centex has built some of the most complex assembled products in the business — experience that sets us apart from the competition.
