VITAL STATISTICS

Year Founded: 1953
 Number of Employees: 23
 Number of Facilities: 1

WHO WE ARE

Criterion Instrument is a precision machine shop producing components for Class II & Class III medical devices. Criterion has prototyped and produced precision components for use in medical instruments, bone screws, surgical implants and diagnostic instrumentation that support medical device companies and the Biotech/Bio-med industries.

MAJOR MARKETS

Medical, Diagnostic, Biotech/Bio-med industries.

SERVICES OFFERED

Criterion has over 50 years experience in the machining of close tolerance (+/- .0002) CNC milling, CNC turning and Swiss CNC

turning of high precision components from prototypes for proof of concept, small production runs for clinical trials through production quantities.

Criterion's capabilities include the machining of many difficult materials such as ultem and implantable grade titanium, as well as stainless steel, aluminum, plastic, peek, inconel, brass, hastelloy, nitinol and non-ferrous castings.

These various components help to service the needs of the orthopedic, spinal, reconstructive, cardiovascular, epidermal, endocrine and many other medical fields of study and research.

CNC Milling, CNC Turning, Swiss Turning, Prototyping, Certified Quality Assurance, FDA Registered, ISO 9001:2008, state of the art equipment and facility – allow Criterion to be part of the solution for your next project.
