## VITAL STATISTICS

Year Founded: 1955  
Number of Employees: 225  
Number of Facilities: 2  
Annual Sales: \$35 Million

## WHO WE ARE

Since our establishment in 1955, we have built a solid reputation as a manufacturer with the highest quality standards and integrity. We are committed to working with our customers in design and manufacturing to supply the highest quality products at an economic cost. Our goal is to set the standards for the industry.

## MAJOR MARKETS

Precision manufacturing of Medical Implants, Bone Screws and complex Surgical Instruments

## SERVICES OFFERED

Hammill Medical serves the exacting and highly specialized

requirements of the medical implant industry. Our design and manufacturing standards for precision implant manufacturing are among the highest in the world.

### Our products include:

- Knee Femoral Components – Cruciate Retaining (CR)
- Knee Femoral Components – Posterior Stabilizing (PS)
- Knee Femoral Components – Revision (REV) Stems
- Knee Femoral Components – Trials (CR, PS and REV)
- Trauma Hip Systems
- Spinal Systems
- Surgical Instruments
- Modular Hip Systems
- Bone Screws

### State-of-the-art Manufacturing & Design

We continuously invest in high-precision, high-technology equipment including multi-axis CNC grinding, 5-axis machining centers, CNC turning and mill/turn centers, 6-axis Swiss style turning, robotic polishing, laser part identification, CNC thread milling, ultrasonic cleaning and passivation and state-of-the-art inspection lab. In addition, we utilize 3-D solid modeling for design and for integrated part programming.

### Engineering and Product Design

Our engineering staff works with our customers' design engineers to provide value-added products and product enhancements. Throughout the implant design, development, prototyping and testing stages, we work in concert with our customers to develop optimal implant design and to engineer cost-effecting, statistically capable manufacturing process and inspection processes.

### Commitment to Quality

Our commitment to innovation, precision and integrity results in the highest quality products in the medical implant industry with exceptional response time. Our customers are among the finest and most respected companies in the world. We do not settle for anything less than the highest quality and integrity in everything we do. Our customers would not accept anything less!

### FDA Registered

Hammill is registered with the FDA as a Medical Implant Manufacturer (Reg. #15303009). Our manufacturing facilities are ISO 13485 registered.
