WHO WE ARE

For more than 50 years Triangle has been a customer focused, value-added engineering and manufacturing partner to the medical device industry. From design, development, prototyping and pre-production to volume production; Triangle helps you get from concept to market faster and more economically. With emphasis on innovative manufacturing solutions, Triangle achieves the highest quality standards. Registered ISO 13485:2003, 21 CFR Part 820 and ISO 9001:2008.

MAJOR MARKETS

Engineering and Manufacturing Partners for Medical Device Breakthroughs.

Triangle is a leading provider of surgical implants and medical instruments, with a special expertise in powered hand tools. We collaborate with our customers to develop the industry's most advanced products for the orthopedic, ENT, cranial, trauma, rehabilitation and sports medicine markets.

Working with many of the foremost OEMs in the world, we have helped engineer and manufacture a wide range of medical devices for evaluation and test, early users, launch and replenishment
