WHO WE ARE

We are a leading nationwide provider of premier wire EDM and small hole EDM machining services. Xact is one of the largest wire EDM shops in the country. Our capabilities include: production (medical, surgical, dental), die components, mold details and electrodes, high precision, small wire diameters, 30+ degree taper angles, automatic threading, large workpieces, auxiliary rotary spindle EDM, file transfer/translation capabilities, CMM, video inspection and small hole EDM.

These capabilities allow us to take on any size or type of wire EDM project and deliver it on schedule. XACT combines people and technology to provide precision wire EDM machining to die makers, mold builders and part manufacturers throughout the United States.
